

LOL

Lol Stool - Sgabello operativo

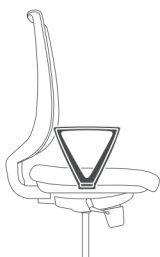

CARATTERISTICHE TECNICHE

schienale	in nylon con rivestimento in maglia di rete in poliestere, elasticizzata, opportunamente tensionata, con supporto lombare regolabile in altezza (50 mm). Questo consente la personalizzazione del contatto tra lo schienale e la schiena dell'utilizzatore, in particolare nella zona lombare, garantendo una adeguata aderenza alla naturale curvatura della colonna vertebrale. Disponibile con schienale medio.
-----------	--

sedile	in multistrato di faggio, imbottitura in poliuretano flessibile, esente da CFC, carter di copertura sottosedile in polipropilene nero.
poggiapiedi	in alluminio pressofuso verniciato, antiscivolo, regolabile in altezza.
braccioli	<u>fissi</u> : in nylon nero

meccanismo

sincronizzato bloccabile in 4 posizioni con regolazione della resistenza dello schienale in rapporto al peso dell'utilizzatore. Questo meccanismo segue dinamicamente l'utilizzatore in tutti i movimenti naturali del corpo; sedile e schienale cambiano inclinazione in sincronia, permettendo di alleggerire la tensione sulla muscolatura dorsale. La tensione del movimento è regolabile, adattandosi quindi alle caratteristiche corporee e alle preferenze dell'utilizzatore. Il corretto rapporto di inclinazione sedile/schienale facilita la circolazione del sangue diminuendo la sensazione di pesantezza degli arti inferiori. Il sistema di sblocco antishock permette il controllo del movimento dello schienale da parte dell'utilizzatore al momento del rilascio.

Leva a destra per regolare l'altezza della seduta

Pomolo centrale per regolare l'intensità della molla dello schienale

Leva a sinistra per bloccare l'inclinazione della seduta in 4 posizioni

elevazione in altezza

mediante pompa a gas consente un'escursione di 26 cm.

base

a 5 razze in nylon o in alluminio pressofuso. Ruote piroettanti a doppio battistrada in gomma autofrenanti Ø 50 mm di serie, oppure piedini fissi.

finiture base

Alluminio lucido Nylon nero
